ICPSR PROCESSING NOTES FOR #38807

National Incident-Based Reporting System, 2021: Extract Files

DS 0004: Victim-Level File

1. **Stata Limitations**: Due to Stata limitations, the variables **BH014**, **BH016**, **SEGMENT**, **V1012**, **V4017C**, **V60071**, **V60072**, **V60073** and **V4018** do not contain value labels for non-integer values within the Stata files.

2. **Unlabeled Values**: The dataset contains multiple variables with unlabeled values, including **BH017**, **V4012**, and **V4018**. Please refer to the PI documentation for further information. In addition, please note that the following value for **FIPS_STATE** is unlabeled in both the data and documentation: 66 'Guam'.

3. **Data/Documentation Discrepancies:** A number of variables in the data do not match their description in the P.I. documentation.

Variable Description and Frequencies

Note: Frequencies displayed for the variables are not weighted. They are purely descriptive and may not be representative of the study population. Please review any sampling or weighting information available with the study.

Summary statistics (minimum, maximum, arithmetic mean, median, mode, and standard deviation) may not be available for every variable in the codebook. Conversely, a listing of frequencies in table format may not be present for every variable in the codebook either. However, all variables in the dataset are present and display sufficient information about each variable. These decisions are made intentionally and are at the discretion of the archive producing this codebook.
