Information about Copyrighted Content

Some instruments administered for studies archived with ICPSR may contain in whole or substantially in part contents from copyrighted instruments. Reproductions of the instruments are provided as documentation for the analysis of the data associated with this collection. Restrictions on "fair use" apply to all copyrighted content. More information about the reproduction of copyrighted works by educators and librarians is available from the United States Copyright Office.

NOTICE
WARNING CONCERNING COPYRIGHT RESTRICTIONS

The copyright law of the United States (Title 17, United States Code) governs the making of photocopies or other reproductions of copyrighted material. Under certain conditions specified in the law, libraries and archives are authorized to furnish a photocopy or other reproduction. One of these specified conditions is that the photocopy or reproduction is not to be "used for any purpose other than private study, scholarship, or research." If a user makes a request for, or later uses, a photocopy or reproduction for purposes in excess of "fair use," that user may be liable for copyright infringement.

ICPSR PROCESSING NOTES FOR #38925

National Incident-Based Reporting System, 2022: Extract Files

DS 0001: Batch Header File

1. **Unlabeled Values**:

    a. The variable **FIPS_STATE** is unlabeled in the data. Please see the P.I. documentation for labels for this variable. In addition, the following values have the labels:

        66 Guam
        72 Puerto Rico
        78 U.S. Virgin Islands

    b. The variables **BH017, BH024, BH025, BH028, BH029, BH032, BH033, BH036,** and **BH037** each have an unlabeled value. Please see the P.I. documentation for labels for these variables.

2. **Stata Limitations**: Due to Stata limitations, the variables **BH014** and **BH016** do not contain value labels for non-integer values within the Stata files.

3. **Data/Documentation Discrepancies**: A number of variables in the data do not match their description in the P.I. documentation.

ICPSR 38925

National Incident-Based Reporting System, 2022: Extract Files

Variable Description and Frequencies

Note: Frequencies displayed for the variables are not weighted. They are purely descriptive and may not be representative of the study population. Please review any sampling or weighting information available with the study.

Summary statistics (minimum, maximum, arithmetic mean, median, mode, and standard deviation) may not be available for every variable in the codebook. Conversely, a listing of frequencies in table format may not be present for every variable in the codebook either. However, all variables in the dataset are present and display sufficient information about each variable. These decisions are made intentionally and are at the discretion of the archive producing this codebook.
